

# DuraClassic Tilt Double-Hung

Available In Several Multi-Window Configurations

Double-Hung with Transom

Twin Double-Hungs

Double-Hung / Picture Window / Double-Hung

## The Beauty of Real Wood

Real Ponderosa Pine wood interior gives your home the richness of wood windows.

## Durable Without the Maintenance

DuraClassic composite material is impervious to moisture. Unlike wood, you don't have to sand, scrape or repaint again.

## No Rotting

DuraClassic material won't absorb moisture and allow rotting like wood.

## Energy Efficient

Solid core composite material is a highly energy efficient insulator, which may give you energy savings in your home.

## DuraCap™

Durable, permanent interior and exterior finish made with patent-pending technology for pre-finished durability that never needs painting.

## Available Color Options

A variety of exterior colors and hardware finish options are available to compliment your unique style.

## Custom Sizes

Custom sizes to fit your architectural styles and window replacement needs.

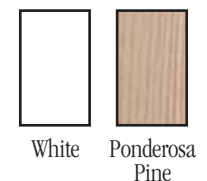

## Beautiful, Durable Finishes

DuraClassic windows feature DuraCap exterior surface technology. It will never crack, peel, chip, flake, or chalk and never needs painting. Available in white pre-finished, permanent color. DuraClassic windows are also available in pine wood interior and many pre-finished exterior colors.

### Custom Pre-finished Painted Exterior Colors. Many other colors are available.

### Pre-finished DuraCap & Real Wood Interior.

\*Printed colors shown here may vary from actual product samples.
